Pleasant Grove

Secondary Water Ending Early

The secondary water system will be shut down starting Oct 1st due to maintenance of the Manila Creek Pond, the City will begin the winter shut down of the secondary water system two weeks earlier than normal. There may be water in some portions of the system for several weeks as the main lines are drained. Residents should plan to winterize their sprinkler systems after the beginning of the month, when lines are empty. The Water Department would like to thank the citizens of Pleasant Grove in their efforts to conserve water this summer.

For questions call the Water Department at 801-785-2941.
